

## Invitation to 5th WoCoVA, Copenhagen 2018

Dear Dr Charvat,

In preparation of this new and exciting edition of WoCoVA, we have the pleasure to invite you to participate to our 2018 conference as a member of the Faculty. The 5th WoCoVA will be held on June 20-22, 2018: the congress venue will be the Tivoli Congress Center in Copenhagen, Denmark.

We have structured the scientific program so to include panel presentations, debates, satellite symposia, oral abstract presentations, video sessions and poster discussions. We enclose a draft of the program, where you can check the details of your participation as a speaker and/or as chairperson. We have scheduled 30' for each presentation: though, in order to leave time enough for discussion, we suggest that the speakers should plan a presentation no longer than 25'. The program also includes a few panel discussions: we will facilitate the preparation of these debates by getting the speakers in touch with the chairperson, in due time. These sessions are 45'

The presentations you are scheduled for are: I-57  
The session we ask you to chair is: 24

Should you accept our invitation, please confirm your participation before Jan 25, 2018. WoCoVA will cover your travel and hotel expenses, based on an economy class return fare, three nights in the speakers hotel and free registration for the full conference. We apologize for these limitations, but obviously we can afford a large number of international speakers only by limiting the expenses and looking for company support. In this regard, please let us know if you think you may have financial support from any company.

After your confirmation, you will be contacted by the congress secretariat (wocova@congresscare.com - phone: +31 736901415) so to arrange your flight and hotel accommodation.

Updates on the program will be available on our website and through newsletters. We hope you may be able to accept our invitation and contribute to the success of WoCoVA 2018. Should you have any question regarding the scientific program please contact us by email: ton@wocova.com

On behalf of the scientific committee

yours sincerely,

Ton van Boxtel
