

DISCOVERY

This immersive programme offers an opportunity to delve into the complexities of paediatric cancer.

GUIDANCE

Through lectures, workshops and case discussions, experts will engage with students to explore cutting-edge topics in paediatric oncology.

CONNECTION

Immerse yourself in a supportive and collaborative learning environment and foster life-long connections with your peers.

Programme and Application at:

<https://siope.eu/2024-summerschool>

Application deadline: 15 December 2023

Who should attend?

Medical students from across Europe who have a particular interest in paediatric oncology.

What makes this course unique?

- Learn about clinical aspects and specific challenges of children and AYA with cancer through real-life case discussions.
- Meet your peers, learn from and network with experts and junior faculty specialised in paediatric cancer.
