# FRESHERS' WEEK 2020

25/9  
.....  
2/10

The purpose of this week is to help you settle down and provide a smooth transition into your first year at medical school, as well as enjoy what Prague has to offer as much as possible.

Throughout this **WEEK**, you will have the opportunity to immerse in **CZECH CULTURE** and learn your first **CZECH SENTENCES** during the intensive course provided by our Language Department. It is highly important to get acquainted with well with your future peers during this week so we have ensured that your evenings will be filled with **AMAZING ACTIVITIES** and plenty of opportunities to gather with each other as well as upper year students. At the end of the week, you will receive your **FIRST WHITE COAT** symbolizing your entrance into the society of **MEDICAL PROFESSIONALS**.

**WHITE COAT CEREMONY**  
6:00 pm  
PROFESNÍ DŮM

\* TO BE CONFIRMED ACCORDING TO THE EPIDEMIOLOGICAL SITUATION

Please notice that due to the ongoing pandemic and for security reasons,  
all the events and activities are subject to changes or even cancellations. We will  
work to keep you updated and inform you in advance about any changes.

## PUB QUIZ

**socialize with your new classmates**

Test your brains at the Pub Quiz! Freshers' Pub Quiz has been one of the great highlights of the week and it is a great way to socialize with your new classmates. With music, Czech beer, and of course, fabulous prizes for the winning team, it promises to be an action-packed evening from beginning to end!

## LOST IN PRAGUE

**where are the best places to study or for a beer**

You will be moving to an amazing city in the heart of Europe and we will give you the opportunity to get lost and explore the beautiful architecture of Prague, while learning where are the best places to study or even go for a beer after school. You can expect an evening full of new challenges that you will overcome with the help of your team.

## FIRST AID CRASH COURSE

**For the first time in FW**

For the first time in Freshers Week, we are bringing a first aid crash course! During one entire day you will get in touch with the basic terms and procedures of first aid but also interactive simulations that will allow you to work in a team when approaching a patient in an emergency situation.

## WHITE COAT CEREMONY

**This ceremony represents your introduction into the medical society!**

Speeches will be given by faculty members. Individually, each student's name will be called and you will receive your first university white coat. Along with your peers, you will then recite an oath pledging your sincerity to your future profession. The

White Coat Ceremony is held every year in the beautiful, historical and centrally located building Profesní Dům, in an extraordinary ceremonial hall. After the ceremony, everyone is invited to enjoy a luxurious dinner.

## WELCOME TO THE LIFE OF A MEDICAL STUDENT

**Before the school year officially begins you will have an opportunity to receive the tools you need to not only live in Prague, but also how to stay on top of your studies.**

Upper year students will provide you with detailed explanations on everything from public transportation access, library times and locations, all important websites and how to navigate through them, as well as which books/resources to use and which not to use. Among the essential information is a lecture on maintaining positive mental health and time management, as well as resources in cases of emergencies. The lecture on positive mental health will be combined with registration for the Pelican Buddy Program — where you are specifically paired with an upper year student as a mentor. These presentations might not seem as exciting as our other evening events but it's an integral part for your future success, so don't miss out!

## INTENSIVE CZECH COURSE

**A very important part of the program is the introduction to the Czech language!**

The best way to have a smoother transition into a new living environment is to master the language. This will help you to have an easier communication with patients, learn more about the country, and more importantly, help you to deal with the problems that may arise when living in the Czech Republic. This course offers an excellent opportunity to start learning the Czech language very quickly and intensively. The Czech classes will be held every morning. After this course, you will be able to read Czech text and understand basic phrases. You will be able to introduce yourselves as well as read and understand basic signs. You will also know Czech words for some food, drinks and furniture. Important Note: The Czech lessons taught during this week won't be repeated at the official beginning of the academic year, so that means that if you attend Freshers' Week you'll have an advantage compared to those who will not attend. The book used during the classes is available to buy at the department.

## BOWLING

**playing and eating**

Who doesn't like a well-spent evening playing bowling and eating pizza? This is a good occasion to get acquainted with your new colleagues, as well as upper year students.

## RADLICKÁ

**summer is not over yet**

We will show you in Radlická Kulturní Sportovna! Meet the other freshers and have the time of your life at the coolest venue in Prague. Enjoy a chill evening filled with live music and delicious drinks.
