*and many other internationally
recognised speakers*

BUDAPEST, HUNGARY NOVEMBER 05-07 2019

Semmelweis University has 250 years of tradition in medical education and is today among the TOP 500 universities in the world and among the TOP 50 in Europe. Built on its scientific activities and achievements, and taking advantage of its extensive international cooperations, Semmelweis University is a regional centre of excellence in research and innovation in the field of life sciences.

Semmelweis Symposium 2019 is one of the most prestigious international scientific events of Semmelweis University and one of the most important forums for sharing the latest developments in scientific research. This year, Semmelweis Symposium is focusing on translational medicine with special emphasis on cardiovascular diseases, their therapy and prevention. Topics will be discussed by internationally renowned scientists and health professionals in the form of various oral presentations and poster sessions.

All researchers and clinicians as well as students interested in life sciences and cardiology in particular are warmly welcomed at the jubilee year's festive Semmelweis Symposium.

**Participation is free of charge, but an
online registration is required. The
language of the Symposium is English.**
