

Branch: General Medicine (0912TA350013)

Faculty:	Second Faculty of Medicine
Type of study:	Master's (M)
Study programme	General Medicine (M0912A350013)
Programme code:	AVL
Form of study:	full-time (D)
Standard length of study:	6 year(s)
Teaching language:	English
Accreditation until:	01.09.2030
Maximum number of accepted students:	90
Entrance examination terms:	25 th – 28 th of May 2021

Description of verification and evaluation criteria:**Entrance examination:**

The entrance examination will take place in distance form online. A three-member committee will be present during the examination procedure and the applicants will be interviewed concerning student motivation including one question related to ethical aspects of medicine. Furthermore, the examination will be completed by an interview on topics from biology, chemistry and physics.

Conditions for admission:

- A. Filing of an application for study, including all necessary requirements and confirmation of receipt of Admission fee, by 30 April of the given year.
- B. Filing of an application for admission without entry exam by 31 August of the given year, including full justification for the request.
- C. "A transfer" from another medical faculty may be allowed under specified conditions, and only to the first year of the study. In case of acknowledgement of the subjects passed in previous study, the applicant may be allowed to advance to a higher year of the study (evidence of which shall be submitted by the student by 31 August of the given year).
- D. Transfer is only possible within an identical study programme and/or study course.

The Dean of the Faculty may admit the applicant when:

1. The applicant fulfils conditions A through C.
2. No more than three differential credits (assessments) shall be required following comparison of the two Faculties' study programmes.
3. The applicant's grade average is lower than 1.5, including repeated exams.

The Dean of Faculty will consider each request individually and issue the final decision.

Information about graduate employment:

Our educational tradition, along with academic excellence and our commitment to prepare students for a successful career in primary care or subsequent fellowship training, make the Second Faculty of Medicine an outstanding choice for your medical studies. Graduates are awarded the degree 'Doctor of General Medicine' (MUDr.).
